9. Matching the objects and symbols 5 to 7
10. Counting objects 7 to 9
11. Learning the symbols 7 to 9
12. Matching the objects and symbols 7 to 9

Different things to count

1. Fingers
2. Plates
3. Family members
4. Books on a table
5. Spoons
6. Plates
7. Cups
8. Pencils
9. Flowers
10. Leaves
11. Toes
12. Eyes
13. Ears

Make it fun

Once the child has started learning the number symbols point out the symbols on sign posts, and different prints, like books and newspapers. Make it an exploration, a journey, something fun and interesting to do.

Very soon your child/children will be the ones searching for numbers all around them counting everything in their path.

Singing Nursery Rhymes and learn Poems with numbers in them.

This is fun and very interesting for children They learn the names of numbers very readily this way.

In conclusion: Give children all the time they need to learn these basic skills
