## **Instructions**

As much as is possible, always start with the concrete objects, but if these are not possible use pictures instead. Ensure that you are not stressing out the child, learning should be fun, don't worry the child will learn, some faster than others but they all learn. Use the 3 Period Lessons to introduce words to the child first. Play many games in helping your child to hear the distinct sounds in the words. Use word building skills to help the child to master the consonant Blends
